WHAT DOES PHYTOZON DO?

PhytoZon® is an exclusive formula designed to enhance your body's natural ability to produce IGF-1 at the cellular level. It is the compound IGF-1 that helps regulate our lifespan. After the age of 20 our body's produce less and less of this important anti-aging compound.

One of PhytoZon's® patented and highly concentrated ingredients is RNI249®. This extraordinary ingredient is the only known natural or pharmaceutical substance shown to increase the body's production of IGF-1, a crucial hormone for cellular growth, repair, and healthy aging. IGF-1 which is also known as "Insulin Like Growth Factor" helps regulate cell growth, cell regeneration, DNA synthesis which effects every cell within the body.
