

# The Benefits...

Until Clear Heart™, experiencing the full benefits of chelation therapy meant enduring uncomfortable, time-consuming, and expensive I.V. treatments. With costs often reaching thousands of dollars, I.V. chelation therapy has been out of reach for most people.

Now, thanks to Clear Heart™, those days may be gone forever.

Our product is simple to use – just 4 capsules daily – and affordably priced. Here are some of the potential benefits:

- Blockage in arteries feeding the heart and brain may be reduced and even eliminated
- High cholesterol, homocysteine, and blood Pressure - key risk factors for heart and brain problems may be reduced to normal levels.
- Chronic shortness of breath may be eased or eliminated.
- Edema (swelling of the lower legs and ankles) a symptom of congestive heart problems, may be alleviated.
- Angina and general chest pains may be eased.

\*These statements have not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure, or prevent any disease.

- Varicose veins can fade or even vanish.
- Enlarged prostates can shrink.
- Insomnia can be replaced by deep, restful sleep.
- Vision problems and "floaters" melt away, eyesight may improve.
- Hearing loss due to calcium deposits in the ear can improve.
- Memory loss and fading mental powers can be halted or reversed.
- Male impotence can be reversed... and much more!

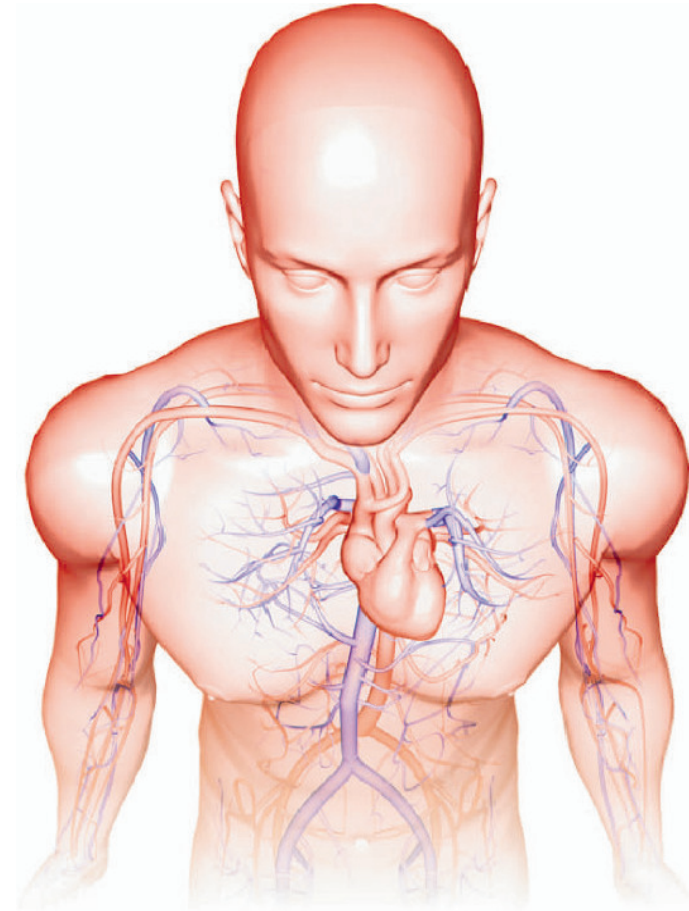

## *A Healthy Heart... Your Life Depends On It.*

*"My father and two of my brothers died from heart attacks all before their mid 50's. The Doctors recently told me I had some blockage and they were concerned. A friend of mine Dr. Lee Bryant, a Naturopath, brought me a bottle of Clear Heart to try and after several weeks on this product the next tests showed the blockage was cleared up! This is an American Dream Come True. Thank you Jesus!" -Della Schultz, Minnesota*

*"My main arteries were blocked and my Doctors recommended Quadruple bypass surgery. I started taking Clear Heart and 10 months later my arteries are Clear. The Doctors were amazed." - Pat Lawler, CA*

# The Problem...

- Every 34 seconds an American dies as the result of a blocked cardiac artery.
- More than 6.8 million Americans undergo heart bypass, balloon angioplasty and other circulation related procedures each year.
- 700,000 Americans will suffer a sudden blockage of blood flow to the brain each year - that's 83 people every hour of the day.
- Year after year plaque deposits grow larger, gradually starving your heart, brain cells and every other cell in your body - setting you up for serious health problems.
- Heart disease and heart attacks are the #1 killers of women in America.
- It claims more lives than breast cancer, diabetes and accidents combined. Cardiovascular disease ranks as the number two cause of death for children under age 15.

# The Solution...

Clear Heart™, an all new one-of-a-kind formulation with L-Arginine, EDTA, Nattokinase, Co-Enzyme Q-10 plus many other proven ingredients designed to help clear and remove 10, 20, 30 even 40 years or more of plaque and calcium deposits from the heart and arteries.

This truly amazing formulation is an exclusive product created by an internationally renowned pioneer and leader in the field of both I.V. and oral chelation therapy.

In medical studies, EDTA has been shown to be safe for humans and has been proven effective in helping to remove plaque from the arteries over many years of intense studies.

In fact, EDTA is so safe for humans, the American Heart Association recommends massive direct intravenous injections as treatment for people who have been exposed to toxic lead, mercury, aluminum, and cadmium.

Scientific studies have proven that EDTA is up to 82% effective at eliminating rogue calcium from plaque, causing clogs to soften, let go and be flushed away! Simply put, this therapy is widely known to be a powerful remedy for - and protection against - heart, joint, kidney and even hearing problems!

The U.S. Medical Association - including the American College for Advancement in Medicine (ACAM) - are dedicated to training doctors in the use of chelation therapy to improve hardening of the arteries and other chronic degenerative issues. As a result, U.S. doctors enthusiastically recommend EDTA chelation therapy to their patients.

Chelation therapy is given to more than 1 million Americans and 3 million patients in Canada, Europe, Australia, and South America every year.
